

# CAPPLUGS

## T SERIES CAPPLUGS (NON-THREADED)

Tapered Capplugs can be used as either caps or plugs. Because they are tapered in design and made from highly pliable (or flexible) Polyethylene, they can be applied to fit snugly and are readily removable, whether used for capping or plugging. Especially recommended for use on MIL Std. and SAE-type tube and hydraulic fittings and for threaded external and internal NPT fittings.

Part No.	Dash No.	Tubing O.D.	Thread	Caplugs As Plugs	Caplugs As Caps	Price Each
04-00045	-2	1/8	5/16-24	1	2	\$0.28

## SC SERIES CAPPLUGS (NON-THREADED)

Series SC sleeve caps are designed to fit outside diameters of tubing sizes listed with a snug friction grip. Available in 57 different O.D.'s and lengths. Ideal for capping and protecting both threaded and non-threaded tubing or rod ends. They also make excellent masks, for painting, plating or grit-blasting operations.

Less 20% Discount on 50 Caplugs (Same P/N)

## PD SERIES CAPPLUGS (THREADED)

Series PD Plugs, designed for use on flared JIC fittings, are knurled for ease of application. They will seal low pressure requirements with light finger tightening. PD plugs can be used to seal 37° flare fittings without gaskets.
