SPINNER EXTRA HIGH POLISH "CHROME"

We now offer our complete line of aircraft spinners "high polished", which gives them a beautiful chrome-like appearance. If spinner is to be painted this is not necessary, but if it will be bare, add the High Polish option for a bright, shiny look. Add these prices to the price of the standard spinner and specify "high polish". Made in the U.S.A.

Note: ACS Plates will only work with ACS Domes.

ADVANCED COMPOSITE AC-1 SPINNER DOME

This new super-light spinner dome weighs about 8oz. which drastically reduces the spinner assembly weight and the need for lead ballast in the nose of pusher-type aircraft. This weight savings, combined with the revolutionary new tapered spinner dome which reduces drag can increase the cruise speed of almost any pusher-type homebuilt. These spinners have been used on a modified VariEze to win several air races.

This composite dome uses the AC-1 10102HD aluminum bulkheads and the 10104 fairing. The spinner's bulkhead is spun from 6061 aluminum sheet. The premium bulkhead is turned from 6061 billet for more fatigue resistance and is grey anodized.
